### A NEW TRIAL

Mr. G. R. Davis Cannot Take an Appeal.

Much Surprise Over the Verdict in Circuit Court.

Mr. G. R. Davis, of the firm that yesterday lost the \$50 damage suit in circuit court in which Mr. George Robertson sued to recover for damages to property in his room on First street, stated today that he would no doubt ask for a new trial at once. No appeal can be taken, on account of the amount involved.

Mr. Davis stated that he was the most surprised man in the city when the verdict was returned against him yesterday. Mr. Davis states that his position in the Robertson case was exactly similar to his position in the Friedman case, and he was no more responsible in one than the other.

In both instances his firm had the sub-contract to put on a new roof. In neither case did his employees take off the old roof, but simply went to put on the new roof when notified by the general contractor that he was ready. In one case Mr. Davis was adjudged not responsible for the damage from rain, and in the other he was.

Mr. Robertson stated to a reporter today that he himself told the general contractor, Mr. B. T. Davis, not to take the roof off, or he would be responsible, but Mr. B. T. Davis' men took off the roof, and Mr. G. R. Davis' men began putting on a new one immediately, but the rain came up when it was about half on. Mr. Robertson's room was locked so they could not remove his property to cover, and it was damaged. Mr. Robertson stated on the witness stand that Mr. G. R. Davis was the only one who did anything to keep the goods from being damaged, and he didn't consider that Mr. Davis owed him anything, yet the jury held that neither the owner of the building nor the general contractor, the latter being the man who took off the roof, was responsible, but that the man who was putting on a new roof was.

There were nine lawyers in the case.

### CIRCUIT COURT

SUIT AGAINST CHURCH TRUSTEES NOW ON TRIAL.

There has been but one case up for trial today in circuit court and the evidence was still being heard at press time. The case is that brought by Robert H. Boyd against the board of trustees of the Second Christian colored church which Boyd claims he loaned \$500.

The case will probably be on trial tomorrow as there is a great deal of evidence to be heard.

In the case of the Snow Mfg Co. against J. T. Powell for \$165, the cost of a windmill, a verdict was rendered in favor of the defendant. It was proven that the windmill, which the defendant refused to accept, was not up to requirements.

A motion has been made in the damage suit of the Register against Nahm & Friedman for a new trial.

### THE SICK.

Mrs. Georgia Lyle is quite ill at Fifth and Clark streets.

The condition of Captain John Carroll at the city hospital is no better.

Mrs. Gus Swanson, who has been ill of rheumatism for the past three weeks, is no better, her many friends will regret to learn.

Mrs. M. J. Plumlee is reported dangerously ill. Her son, Mr. J. N. Crutchfield, of Mayfield, has been called to her bedside.

Mr. Dan Bailey, of the local Illinois Central storehouse, has recovered after a several days' illness and was this morning able to be on duty again.

Lena Alden, colored, died of lung trouble this morning at 2 o'clock at her home, 615 North Thirteenth street. She leaves a husband and two children.

Home buying and mortgage paying made easy by co-operating through the Kentucky Home Buyers Co. Operative Association, Edgar W. Whittemore, manager, 510 Broadway, Paducah. You can buy a home or pay off a mortgage by easy monthly payments. It is a home institution and all particulars will be promptly given on request. Phone 258. Our agent will call on you and explain the plan if desired.

Miss Lydia Woolfolk left at noon for Carbondale on a visit.

### WILL KEEP IT UP

Doctors to Pass Another Resolution About the Hospital.

It Will Ask the Council to Assist in All Possible Haste.

The doctors of the city have decided that Paducah needs a first class charity hospital and will not cease efforts to secure one until it is a reality. This was decided yesterday afternoon at a meeting held by the committee appointed from the society to look into the matter of securing funds to build an such institution.

The council gave the society a great deal of encouragement in assuring the members of the committee that the bond issue ordinance would probably be unanimously passed, but it has subsequently developed that the council will have to first put the matter before the people at a regular election. This would require something like a year to settle the question as to whether the people wanted the bonds issued or not, and is very discouraging to the doctors. At the meeting yesterday afternoon it was decided to keep after the municipal officers until the hospital is built, and a committee was appointed to draft resolutions to be read and acted on at tonight's meeting of the society.

Dr. Brooks, one of the committee-men, said this morning: "We have decided that the only way to secure this much needed hospital is to keep after the officials of the city and to use every other method by which we might secure some aid in the matter of raising funds. We may have to attempt to collect the money by public subscription or by time donations. We intend to have the hospital as soon as possible and will adopt the most persistent plans to get it."

### BUY EGGS

ENGINEERS DO NOT FEAR AN EGG TRUST.

I. O. engineers running on the accommodation trains are having a good thing in egg buying and purchase eggs at from 5 to 7 cents cheaper per dozen than they can be purchased here.

The engineers arrange with the farmers residing between here and Mayfield to have eggs brought to the nearest depot and pay only 15 cents and sometimes less per dozen for the "hen fruit." These farmers seldom get to Paducah and when a surplus of eggs is on hand sell them at most any price.

### STILL SURVEYING.

ILLINOIS CENTRAL ENGINEERS MAKING PROGRESS NEAR MAYFIELD.

According to the Mayfield papers, the Illinois Central engineers who are working on the supposed Mayfield-Gilbertville cut-off, have made a good deal of progress, and a second relay of engineers has gone to work, locating the road. It is reported that should the cut-off be built, it will necessitate another bridge over Tennessee river a mile above Gilbertville. The surveyors have reached Oak Level, Marshall county.

TAKE THE NEW TELEPHONE—The People's Independent Telephone Co. has been selected by the Merchants' association, the Retail Grocers' association, and the Physicians, Dentists' and Bar associations to furnish exclusive telephone service. The company uses all long distance instruments, full metallic circuit, no party lines, and the latest improved switchboard; all of which will insure the highest speed, complete privacy and up-to-date service. Do not delay, but send in your subscriptions at once; as instruments are now being rapidly installed. All types of instruments on exhibition at the company's office, No. 118 South Fifth street.

Depew Satisfied with Life. Mr. Depew, nearly a year younger than Senator T. C. Platt, but still well along in his sixtieth year, wrote from Europe to his colleague on the occasion of the latter's birthday that "I would be quite willing with this bright, beautiful and enjoyable world about us if we could indefinitely postpone the progress of time."

### Flexibility of a "Dorothy Dodd"

#### EASY SOLES

IT IS SAID that the woman who goes to church with squeaky shoes goes to the right place, for her SOLE needs attention.

There is really a good deal about the sole of a woman's shoe that needs attention. You realize it if you stop to think how much you relieve the discomfort and "hardness" of shoes by making their soles flexible.

So far as I know (and I have taken pains to examine many different makes of shoes) the "Dorothy Dodd" is the one shoe for women that is really constructed with a flexible sole.

You can tell the difference as soon as a few steps have been taken. It means comfort. And a flexible sole, as rule, will out last any rigid sole—don't overlook that!

They Cost **\$3.00** *Dorothy Dodd*
